Project Overview

MSR Innovations (Demo), as of 11/09/2026, 07:30

What's on today

Compiled from all projects. The command starts the next step in Claude.

Today: **2 projects are waiting for a decision**, new documents in 1 project, 1 document is due.

2026-014 — New documents — **Office building with hydrogen storage:** 2 new documents from the architect since the last work step (floor plans, room data sheet, 09/09)
May affect 2 specifications, including the control cabinet locations.
`/msr-planung:aenderungen-pruefen 2026-014` Copy

2026-014 — Decision — **Office building with hydrogen storage:** 5 specifications open, incl. actuators and room automation
The explanatory report WS 2 can only be completed afterwards.
`/msr-planung:offene-punkte 2026-014` Copy

2025-031 — Decision — **Refurbishment of Nordstadt Comprehensive School:** Functional description ventilation is waiting for 2 specifications (CO2 setpoint assembly hall, night ventilation)
Without this information, the execution design for ventilation remains open.
`/msr-planung:offene-punkte 2025-031` Copy

2026-022 — Document due — **Laboratory Building Campus East:** WS 1 is under way, the requirements specification has not been created yet
User requirements, room data sheet and technical specifications have been in the inbox since 01/09.
`/msr-planung:lastenheft 2026-022` Copy
